

EXP NO : 05

Create a simple cloud software application for Library book reservation system for SIMATS library using any Cloud Service Provider to demonstrate SaaS

The screenshot shows the 'Customer Details' form within the 'Library Management System'. The left sidebar contains navigation links: 'Customer Details' (selected), 'All Customer Details', and 'Book Details'. The main form area includes fields for Name (First Name and Last Name), Email, Phone (with a country code dropdown set to +91 and a value of 81234 56789), Address (Address Line 1 and Address Line 2), City / District, State / Province (a dropdown menu), Postal Code, and Country. The bottom of the sidebar shows the user profile 'Sai Pavan TM' and a notification bell icon.

The screenshot shows the 'Book Details' form within the 'Library Management System'. The top navigation bar includes the system name, a 'Development' tab, and various utility links like 'View as', 'Trial expires in 12 days', 'Upgrade', 'Edit this application', and 'Help'. The left sidebar contains navigation links: 'Customer Details', 'Book Details' (selected), and 'All Book Details'. The main form area includes fields for Book Name, Book ID, Date Of Purchase (with a date picker), Time (with a time picker), Total Number Of Days (with a numeric input), and Total Cost (with a numeric input). At the bottom of the form are 'Submit' and 'Reset' buttons. The bottom of the sidebar shows the user profile 'Sai Pavan TM' and a notification bell icon.
